

# Thomas H. Ahrens

Strong in implementation and results-oriented manager with many years of management experience at management, supervisory and advisory board level, with profit and loss responsibility in companies with sales of up to €2.0 billion/year in the chemical, adhesives, plastics, process and electroplating industry. Profound experience in managing global organizations including sales, production, supply chain, and finance. In addition, several years of experience in leading R&D organizations.

Very successful "track record" in the development and rapid implementation of sustainable strategies to increase the value of companies as part of value creation projects by increasing growth, profitability and liquidity in all sections of the value chain. Experienced in managing employees and dealing with the works council. Profound experience in implementing measures to improve "Team Excellence" in sales, purchasing, production, supply chain and working capital management. Solid in the management of PE portfolio companies from due diligence to exit and in carrying out company acquisitions as part of buy and built strategies, including post-merger management.
