

# Panos Chamakiotis

Panos (Panayiotis) was born in Greece.

With studies as Agricultural Engineer & specialization in Soil Science at Aristotle University of Thessaloniki, today lives in Barcelona and he works at the COMPO EXPERT Group as Regional Director for Europe, Middle East & Africa. He holds an Advanced Management degree from one of the best business schools at the globe, IESE Spain.

Back in 2012 Mr. Chamakiotis was appointed as Head of COMPO EXPERT for South Europe and therefore has been relocated in Spain.

Previously he was Managing Director in COMPO EXPERT Hellas and K+S Hellas for the Greek and Balkans territories, after spanning many years in top managerial positions at companies such as Shell Chemicals, American Cyanamid, Basf, Elton Group.

Today he is the Regional Director of EMEA Cluster and the Managing Director of COMPO EXPERT SPAIN & GREECE

His professional background counts more than 30 years in the industries of seeds, pesticides, chemicals and fertilizers.

He is passionate in settling connecting platforms for the creation and capture of added value for his associates. While is a deeply results oriented person, he is doggedly supports continuous evolution with influence, guidance, and development of teams that he is working with, based on the vision setting by generating sound strategic initiatives and promoting an extroverted culture.

Improvement of personal weaknesses, knowledge from failures, dare to create different business models, speed of decisions taken, knowledge of the market's environment and its potentials, preparation and pro-activity for achieving ambitious goals and preparing future-fit organizations are values and characteristics of his personal style in making business.

Panos Chamakiotis is a member of the Global Management team of COMPO EXPERT GROUP, has previously participated in the Advisory board and in the Executive Committee of the Group and nowadays he is the Chairman or a member of the board of directors in several entities of COMPO EXPERT GROUP such as COMPO EXPERT Portugal, Italy, Poland etc.

He is also in the board of Agri-Food platform in Spain, visitor professor of the American Farm School and founder of a Solar Park company in Greece.

His motto is : "Building bridges within the whole food chain" and he doggedly serves this by connecting the dots among entrepreneurs, growers, agrifood-technicians, academic people, politicians and consumers.

He is fluent in English, Spanish (limited working proficiency) and Greek languages. He is married and father of one girl.

He is the author of two books, "The Challenges of Modern Agriculture" & "F.O.O.D" and founder of the e-learning platform «The F.O.O.D (Future Of Obvious Disruption) Project».
