5th BioAgTech World Congress Sessions

BIG PICTURE DAY

- SESSION 1** Why Sustainable Agriculture Needs Bio-Agriculture? Connecting The Dots With Food Chain, Carbon Marketplace, Sustainability, Regenerative Agriculture, Food Safety and Food Security
- SESSION 2** BioAgTech Innovations and Solutions Commercialization and Adaptability Challenges – Role of Research and Public Institutions, Media, Farmers, Retailers, Agronomists and Food Chain

INNOVATION DAY

- SESSION 3** Regulatory Streamlining and Harmonization in BioAg in view of Green Deal Requirements and Lack of Regulatory Framework to bring Alternate BioAg Inputs to the Market in a Timely Fashion
- SESSION 4** Biostimulants Innovations In Relation To Nutrient Use Efficiency and Abiotic Stress Management
- SESSION 5** Biopesticides as Integrated Solution in Crop Management for Biotic Stress Management, Food Safety/Security
- SESSION 6** Soil, Plant, Seed Health and Water Efficiency Management, and the Role of Microbiomes

BUSINESS DAY

- SESSION 7** Digital and Data Platforms, Application Technology, Precision Ag/Ag Tech and Nano Solution
- SESSION 8** Investment Outlook, Trends, Challenges for Startups and Investors from different segments and how a bottom up good market research can play an important role
- SESSION 9** Leadership Challenges and Opportunity Session – Where The Buck Stops

Why BioAgTech World (BAW) Congress is Different

- 1** The BAW Congress is the only event that is planned, organized and managed by PASSIONATE BIOAG PROFESSIONALS who have dedicated their lives for agriculture.
- 2** The BAW Congress is an event, truly "BY the Industry FOR the industry" – where the entire BioAg community comes together to share, network, learn and celebrate.
- 3** The BAW Congress is the only event which focuses on all segments of Sustainable Smart Farming, that include biofertilizers, biostimulants, biopesticides and all related technologies such as Precision AgTech.
- 4** BAW Congress is the one well-balanced event that facilitates result-oriented networking, but moreover our event provides rich content on current industry trends, business issues, innovation updates, leadership insights, interactive panels on burning issues and deep insight in the regulatory landscape.
- 5** BAW Congress is the singular event where all industry stakeholders that include farmers, agronomists, policy makers, business builders, marketing planners, investors and food chain experts meet together to find solutions.
- 6** BAW Congress is hosted each year in a different continent. Wherever the Congress takes place, it remains a "truly" global event with regional focus.
- 7** BAW Congress is the only event with three prestigious awards: Bio-AgTech Sustainable Grower, BioAgTech Achiever and the BioAgTech Innovator. Awards are determined through audience polling and an independent committee.

60 (Approx.)
Countries

The BioAg Industry is continually evolving, and AgTech is one of the major movement-makers. AgTech now influences everything concerning sustainable agriculture. The BAW Congress meets this higher standard by embracing AgTech, and so it is natural for our global event to evolve as well. Please welcome, BioAgTech World Congress! We will "walk the talk" by shining a strong light on AgTech at our events and in all we do.
