

Mauro Lopez

Mauro is an Agronomist specialized in Horticulture and Fruitculture Production and Plant Biotechnology and is part of Alltech Crop Science since 2016, and he started his functions in Alltech as Areas Sales and Technical manager, for Portugal.

Before he was connected to Portuguese Producer's Organizations, where he held the position of Responsible Agronomist, dealing with all the field processes, from pre-sowing/planting to harvest, post-harvest and Quality Certification Procedures.

Being aware of the market's dynamics, requirements and being a sustainable production enthusiast, Mauro is eager to contribute on sharing, improving and adjusting non-residual production processes, throughout Europe and Northern Africa, developing partnerships and consolidating the ACS Business and Vision.
